

Nail Buffers

Nail buffing blocks designed for the professional market and used in salons globally.

Designed from a selection of coloured closed cell foams, these buffers are easily sanitised between customers.

Available in white aluminium oxide or black silicon carbide grains from 60 to 280 grit, making them suitable for all types of nails from acrylics, gel, fibreglass or the natural nail.

- easily sanitised
- NEW 2 sided buffer
- selection of colours
- Combination of grits
- variety of grits
